Mrs. Albert Lasker
870 United Nations Plaza
New York, N. Y. 10017

My dear Mary:

It was mighty good of you to write me from California and send me the story about the Lister Hill Center in the NIH publication.

May I say that no one inspired me more or helped me more than you did when I was working for the health of our people and for all people. I sometimes wonder if you realize the great work that you have done. You have been a tremendous inspiration to me, and my only regret is that we are not still working together. As you know, I am now 81 years old and Henrietta is not in good condition with this Parkinson disease.

I do hope you enjoyed your visit to California this year and that I will have the pleasure of seeing you before too long.

If there is anything I can do for you at any time please be sure and let me know.

Henrietta joins me in sending you our affectionate regards and all good wishes.

Sincerely,

A handwritten signature in cursive script, appearing to read "Lister", followed by a long horizontal flourish line.
